

WHAT IS GOD'S
GREATEST CREATION
OF ALL?

YOU
ARE

GOD'S GREATEST CREATION

Are you special? Yes, you are. You are special because God made you. This is the Bible story of how God made the first person ever.

It was the sixth day of creation. God had made a world full of plants and fish and birds and animals. It was a wonderful world.

But God was not done. God said, "Let us make human beings in our image and likeness. Let them rule over the fish, the birds, and all the animals" (Genesis 1:26).

So God created man in His own image. God took dust from the ground and formed a man. He made eyes and ears, hands and feet, a nose and mouth, and everything else.

Then God did something for the human being that He did not do for anything else He made. God breathed into the man to make him alive. God called the man Adam.

God made a special home for Adam. It was called the Garden of Eden. It was full of trees, plants, fruits and vegetables for Adam to eat.

God gave Adam two special jobs. He told Adam to take care of the Garden of Eden. And God let Adam name all the new animals He had made.

Adam named the bears that growl. He named the birds that fly up high in the sky. He even named the giant elephant and the tiny mouse. Next, God made Eve.

God was happy. When God looked at Adam and Eve, He thought His creation was very good.

The

3 Days of Creation

The Bible says, "In the beginning God created the heavens and the earth" (Genesis 1:1, NIV).

On the first day, God created light and called it day. He called the darkness night. This was the first day and night ever.

On the second day, God separated the waters and made the sky.

On the third day, God gathered all the waters in the world into oceans and seas. This made dry land appear. God created all kinds of plants and trees to grow on the land for food.

On the fourth day, God made the sun for the day and the moon and stars for the night. These lights caused the seasons, months and days we use to measure time in our lives. We know when to plant crops and when to harvest. We know when to sleep and when to wake up.

On the fifth day, God made every kind of fish and sea creature, from the killer whale to the minnow. Then God filled the sky with every kind of bird, from hummingbirds to eagles.

The sixth day of creation was special. God made all the land animals. He made tigers, leopards and hyenas. Then God finished His creation by making the first people. God blessed them and told them to take care of the earth He had made.

When we take care of God's earth and everything in it, we show God we are grateful for His creation. He is also pleased when we thank Him for His wonderful world.
